How to add a device

1. Only need a 2.4Ghz home Wi-Fi and a free APP (Minoston/Smart Life) to easily complete the network configuration settings.

Note: Please download the app from Google Play or Apple Store, or scan the following QR code to download.

Minoston APP

Smart Life APP

2. There are 2 methods to setup the Wi-Fi device. Refer to the page 2 to 5 for detailed steps.

3. To add a device to Alexa, first add the device to Minoston/Smart Life App. After that, connect to Alexa using the third-party control of Minoston/Smart Life APP. (page 6 to 9).

1. Bluetooth Quick Connection

(1) Open the Bluetooth of your phone.

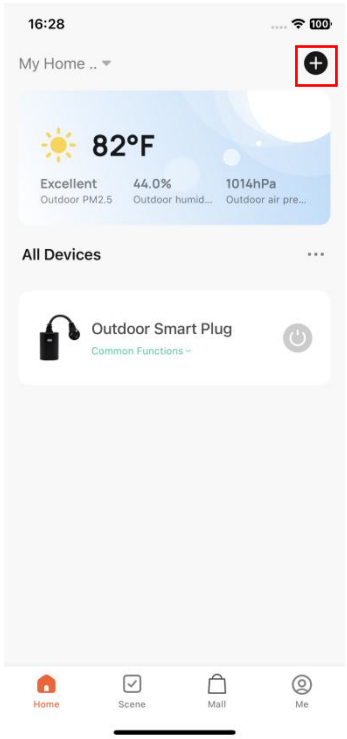

(2) Confirm that the indicator of the device is flashing.

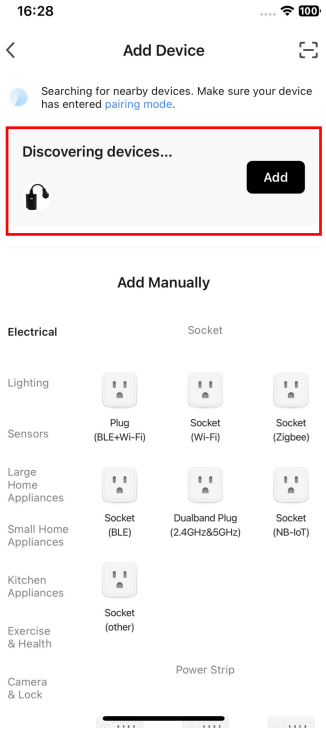

Note: If the indicator light does not flash, press and hold the device button to reset.

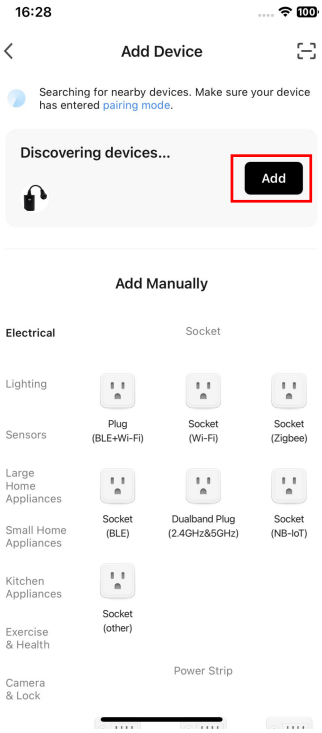

(3) Open Minoston APP and click "+" to add device.

(4) App automatically searches for the device.

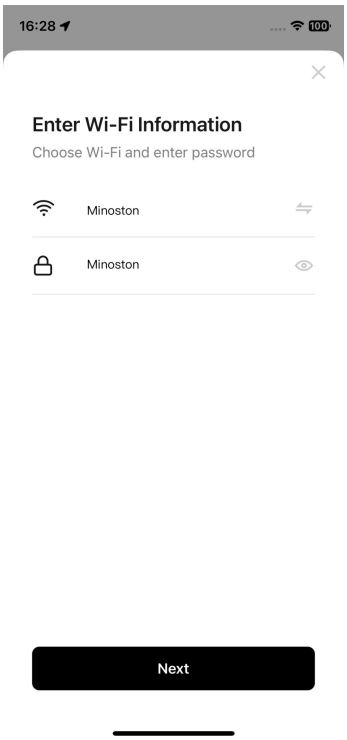

(5) Click “Add” to add the device.

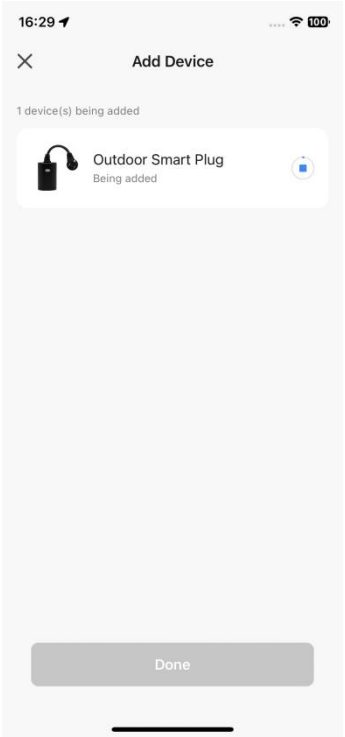

(6) Select your Wi-Fi **(2.4G)** and enter the password.

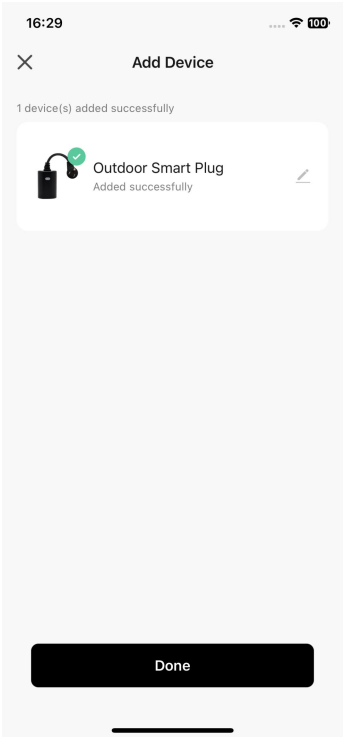

Note: Not compatible with 5G Wi-Fi.

(7) Wait for the device to be added

(8) Complete!

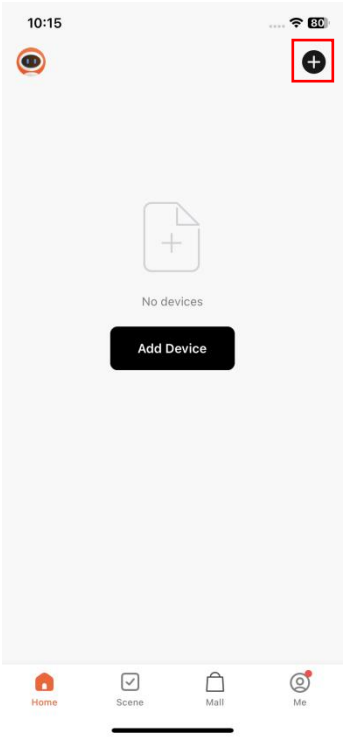

2. Easy Mode Connection

(1) Confirm that the indicator of the device is flashing.

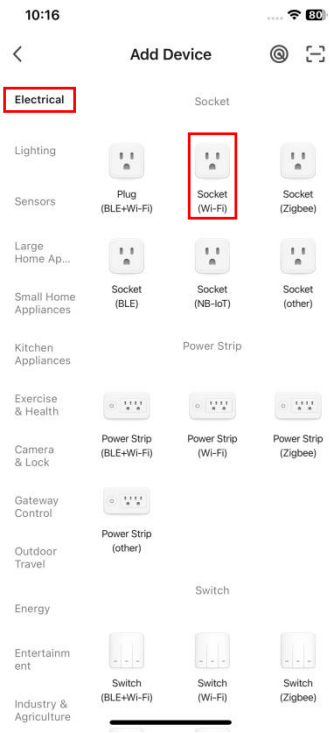

Note: If the indicator light does not flash, press and hold the device button to reset.

(2) Open Minoston APP and click "+" to add device.

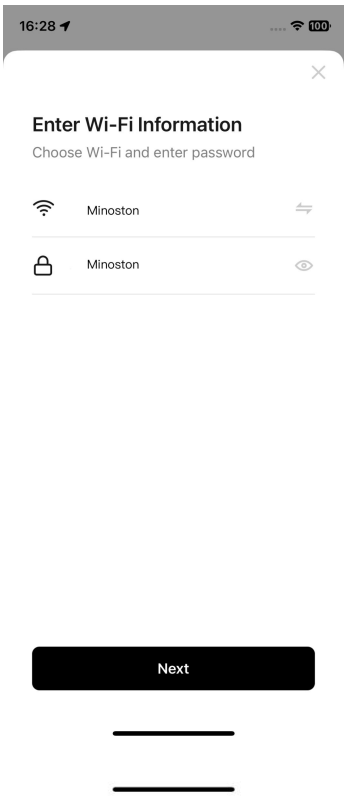

(3) Select "Socket (Wi-Fi)" on the "Electrical" list.

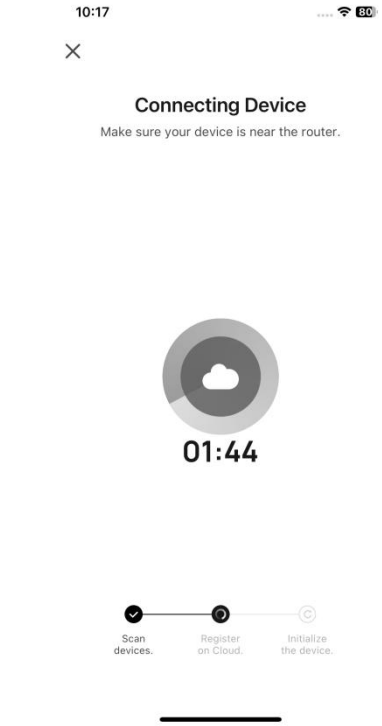

(4) Select your Wi-Fi **(2.4G)** and enter the password.

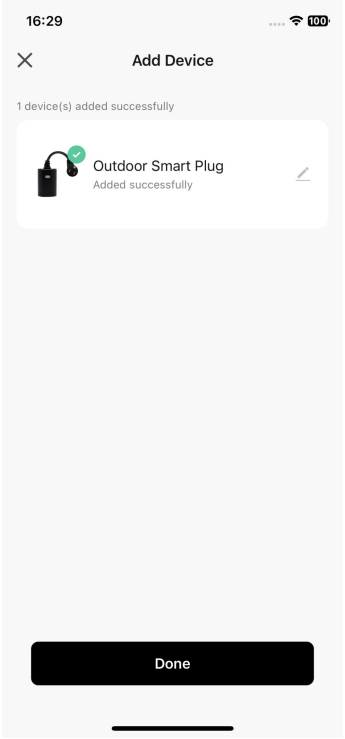

Note: Not compatible with 5G Wi-Fi.

(5) Wait for the device to be added

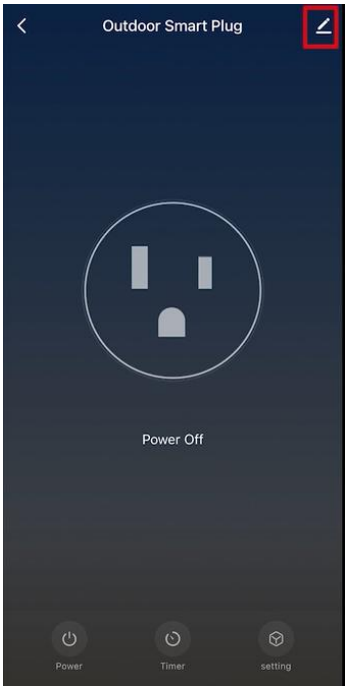

(6) Complete!

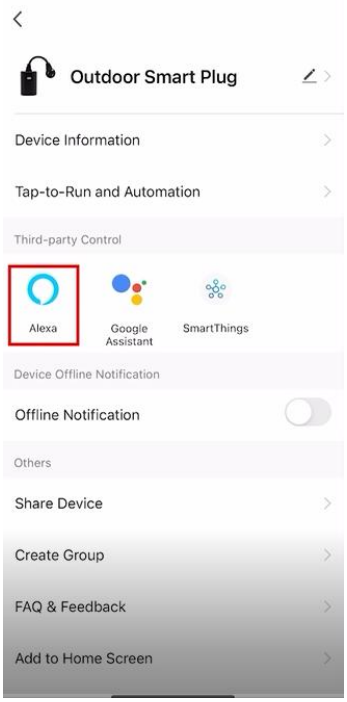

3. Link to Third-Party Control

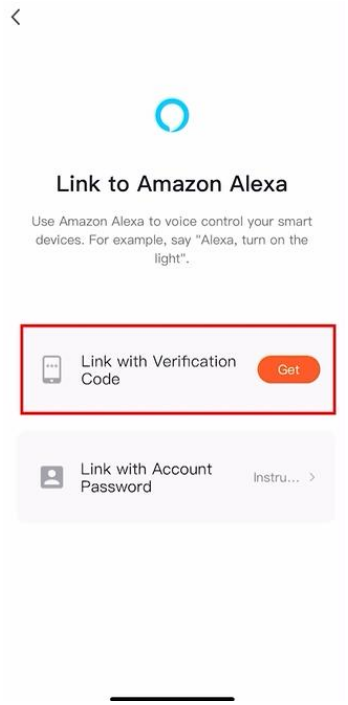

(1) Open Minoston APP and open the product list.

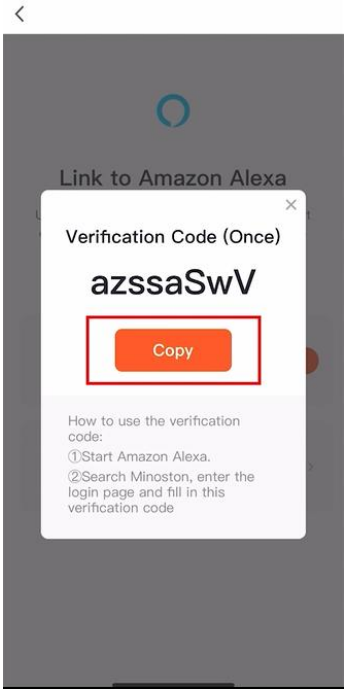

(2) Click “Alexa” on Third-party Control.

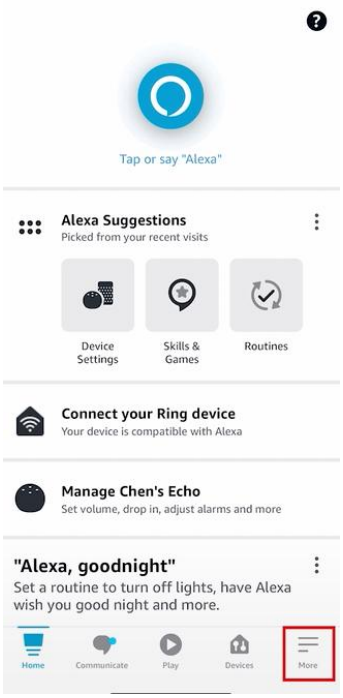

(3) Click “Link with Verification Code”.

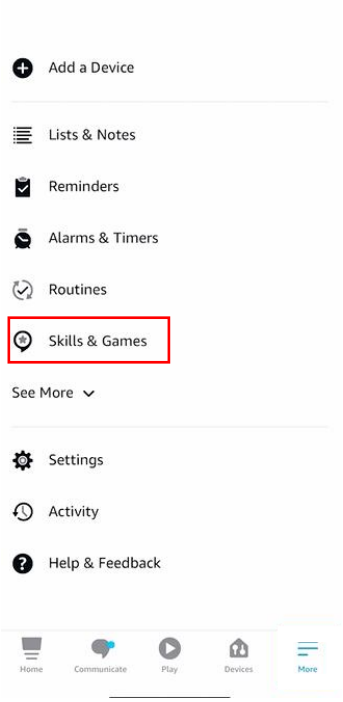

(4) Copy the verification code.

(5) Open the Alexa APP and go to “More” page.

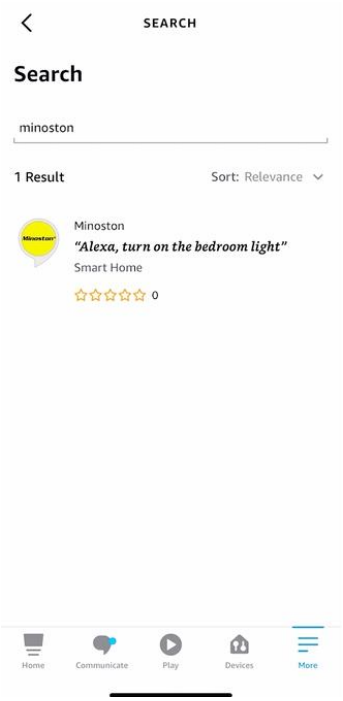

(6) Go to Skill & Games page.

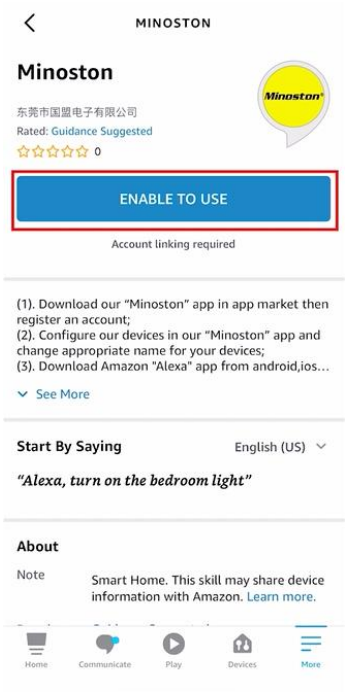

(7) Go to the search page.

(8) Enter "minoston" in the search box and select it.

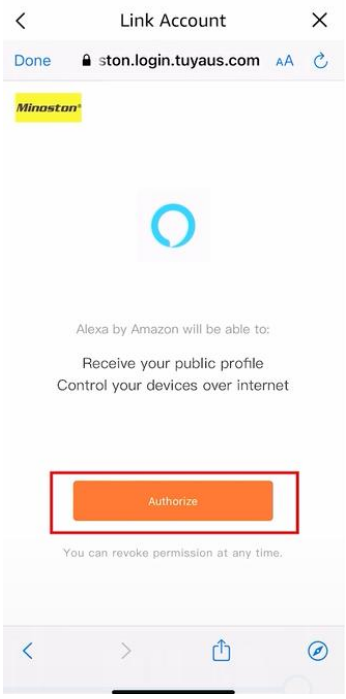

(9) Click “Enable to use”.

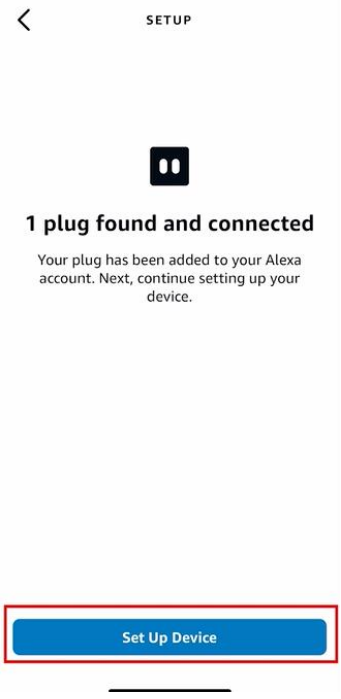

(10) Paste or enter the verification code.

(11) Authorize it and then click “next”.

(12) Complete to set up the device!

(12) After complete the settings, you could find it in your Alexa app on the "device" page.
