Setup The Device Via Apple Home

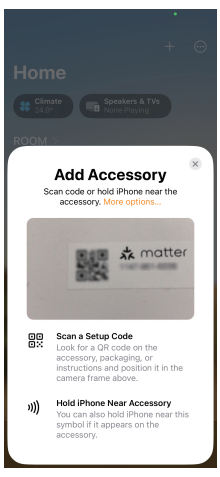

1. Open Apple Home app.

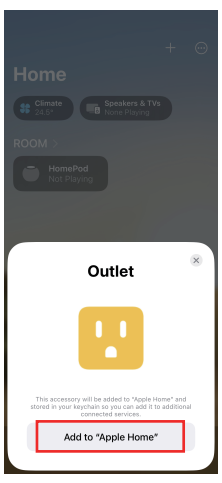

2. Tap '+' icon and then select 'Add or Scan Accessory' to add a new device.

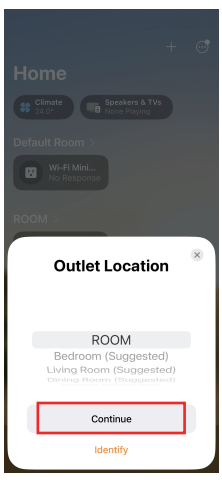

3. Scan the QR code on the device.

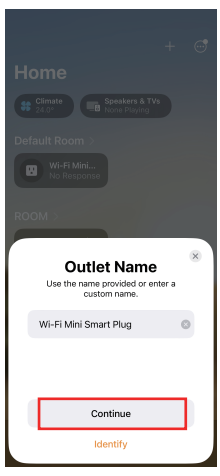

4. Wait for the connection to complete and then tap Add to "Apple Home" to add the device.

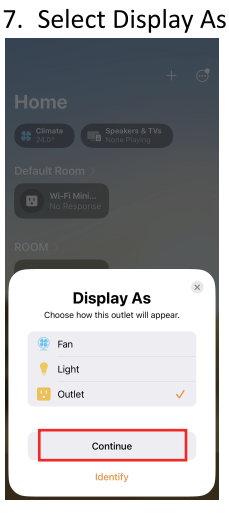

5. Select outlet location for the device and then tap the 'Continue' icon.

6. Edit the name for the device and then tap the 'Continue' icon.

7. Select Display As 'Outlet' and then tap the 'Continue' icon.

8. Tap the 'Done' icon to complete the settings.
